*AccuZIP can add Walk Sequencing numbers (DSF2) to your list through our Data Enhancement Services. This service is available within the software in real time at a cost of \$1.00 per 1,000 records processed. Adding Walk Sequence numbers can significantly lower your postage rates if the list has enough records per Carrier Route to meet USPS requirements. Contact Tech Support if you are interested we can show you how to check your lists before processing and how to use the Data Enhancement services.
